

News Release – 28 March 2011

Inseto Signs Agreement To Distribute Plasma Etch Products

Inseto is pleased to announce the signing of an agreement to distribute Plasma Etch products in the UK, Ireland & Scandinavia.

Plasma Etch are leading manufacturers of plasma treatment, etching and cleaning systems, including entry level bench-top models through industrial to high-volume continuous feed production equipment, used in electronic, medical, industrial & research applications.

Inseto is an ISO accredited technical distributor, providing manufacturing equipment, assembly materials and related consumable products for advanced electronic research & production, in addition to adhesives for technology-led industries.

According to Tony Brown – Managing Director of Inseto, “Besides producing an excellent range of equipment, which compliments our existing product lines, Plasma Etch also share our customer support philosophy, ensuring that each customer is completely satisfied with our products and services”.

Further information on Plasma Etch Inc., is available on Inseto’s website www.inseto.co.uk.
